	<ul> <li>iv. Give the equivalent PDA rules for the grammar given in question (5 marks)</li> <li>v. Check if the above grammar could generate the string "does this flight include a meal" (4 marks)</li> <li>vi. Simplify the grammar (7 Marks)</li> <li>vii. Convert the above CFG to Chomsky Normal Form (CNF) (4 Marks)</li> </ul>				4	4.2.1	
2	Read the following scenario and answer the following questions.  Consider there are two color cubes (Red and Yellow) they are equal in number. The logic is Red cube to be taken and stack all the Red cubes first. Later once no more Red cubes are available, for each Yellow cube remove one Red cube from the stack. Make sure stack should be cleared.	25		3	4	4.2.1
